Skills:

Angular (version 2 -15)
HTML, CSS, SCSS
Typescript, JavaScript
Visual Studio Code
GitHub, Bit bucket, GitLabs
Problem-solving

RESTful APIs
Jenkins, AWS S3
PrimeNG, Bootstrap, Angular Materials
npm, yarn package Manager
JIRA, VSTS, Agile Tools
Time management

Work Experience:

Senior Software Developer
UI – Angular Developer

Mar 2021 – Current
LTIMindtree (previously **Larsen & Toubro InfoTech**), Chennai

1. Teller Application for Bank:

- Led the successful development and delivery of a comprehensive teller application, **serving over 1,000 Bank employees** and facilitating streamlined banking operations.
- Expertly managed Business As Usual (BAU) activities, consistently improving system performance and resolving defects with an **average of 95% defect resolution rate**.
- Upgraded a **legacy Angular 4 application to Angular 14**, effectively addressing **cross-browser** challenges, and ensuring optimal performance in Internet Explorer.
- Led specialized modules: **Remote Authorization, Digital Signature Pad Verification**, and innovative **Face Detection Authorization**. Enhanced security and functionality, achieving a significant **20% reduction** in authentication processing time.

Associate - Senior Developer
UI – Angular Developer

Apr 2019 – Feb 2021
COGNIZANT, Chennai

1. Financial Auditing Application:

- Collaborated in an **agile team** to successfully create an **Audit application**, delivering a significant **20% reduction** in audit process duration for participating firms.
- Built **highly reusable shared components** and fully embraced **XML-based validation**, leading to a substantial **70% reduction** in development time while ensuring **impeccable data integrity**.
- Managed a **multi-lingual project** efficiently, storing **AWS S3** labels and keeping up with the latest software. Demonstrate an **exceptional proficiency** in AJAX and JavaScript DOM manipulation techniques, resulting in a **20% reduction** in page loading times for web applications.
- Enhanced expertise by resolving **100+ HTML/CSS issues**, and mastering Flex designs. Utilized VSTS for issue tracking, maintaining a **98% resolution rate**, and collaborating with cross-functional teams.

2. Healthcare Application UI:

- Developed an efficient **Responsive Web Design(RWD)** for Healthcare application, transitioning from **Flex to HTML5/Angular** while prioritizing code quality.
- Leveraged **TypeScript** and **rxjs extensively** to achieve **20% faster** advanced component communication, maintaining impeccably **clean HTML** through a form-driven approach.
- Enforced **rigorous coding standards**, introduced **custom lint rules**, and actively collaborated with **API, BA, and QA teams**, resulting in a **15% reduction in code defects** and streamlined development processes.
- Achieved high **unit test coverage (90% and above)** and promptly resolved issues using JIRA.

Senior Engineer

Infrastructure maintenance & Application

May 2017 – Nov 2018

SOCIETE GENERALE GSC Limited, Chennai

1. Identity and access management application for SOCIETE GENERALE BANK

Successfully developed and managed an **AngularJs website** that facilitated **automated workspace allocation** and **application access** for new employees, harnessing the power of the company's standard API for **authentication** and **CRUD operations**, resulting in a **30% reduction** in on boarding time and enhanced security.

Senior Systems Engineer

Infrastructure maintenance & Application Support

Feb 2014 – Feb 2017

Infosys Limited, Chennai

1. Proximus (Belgacom Communications) Application Support:

- Monitored and oversaw over **50 Java applications** on Unix systems, consistently ensuring seamless performance and unmatched reliability with **Oracle databases**.
- Introduced automation using shell scripts and SQL queries, resulting in a **25% reduction** in incident resolution times.

2. Royal Bank of Scotland Application Support:

- Led a highly successful service transition, acquiring extensive **domain knowledge**, and providing **critical technical support for Java applications** utilized by internal bank users, **ensuring 100% uptime** and consistently seamless operations.
- Provided 24/7 monitoring and L1 & L2 support for Windows server applications, collaborating to ensure **high-quality incident, problem, and change management within SLAs**.

Education & Certification:

- **ITIL ® Foundation 2011 Certified** in 2017 with **80 percentage**
- **B.E - Computer Science Engineering** from Jerusalem College of Engineering Affiliated to Anna University in 2013 with **63.5 %**.
- **H.S.C** from D.A.V Matriculation School, 2009 – **82.5 %**.
- **SSLC** from D.A.V Matriculation School, 2007 – **79.5 %**.

Achievements & Personal projects:

- Proactively learned VB scripting to automate daily health checks, garnering recognition from management and inspiring other teams to adopt similar time-saving practices. Additionally, developed an efficient SQL query to resolve bulk, repetitive customer errors, greatly enhancing overall productivity.
- Created personal projects including a Movie Database, Bookshelf manager, Music player, Joke teller bot, and more using Typescript and Angular. You can explore them at <https://github.com/anishkumar92>.
